

High Value Homeowners Quick Reference Guide

Beazley insures high value homeowner risks located in coastal (CAT) and interior (Non-CAT) regions of the US on a surplus lines basis through our syndicate capacity at Lloyd's.

Strategy

Desirable E&S business that is not written by admitted market

Target market

- High value homes throughout the US
- Minimum coverage A between \$300,000 and \$500,000 by state

Underwriting appetite

- Writing homes from \$300,000 to \$5,000,000 across the US (except AK, HI) – recent successes in northern and central FL, coastal SC, coastal AL, and New England – MA, RI, CT
- Hurricane exposed homes on Atlantic/Gulf
- Primary, secondary, seasonal, and rentals
- Vacant, builder's risk, and spec homes
- Other surplus lines business considered

Policy forms

- ISO DP3/H03/H05/H06 available
- Earthquake only, NC excess wind only
- Water backup, golf cart, identity fraud, and ordinance or law limited cover by default
- Optional extended replacement cost, scheduled personal property

Capacity

- Up to \$10m TIV Non-CAT
- Up to \$5.4m CAT
- Up to \$10m CAT with 2002 + building code

CAT coverage

- \$5.4m wind exposure
- Non-California earthquake
- Excess flood

Distribution

100% wholesale brokers
