

Discounts

New Discounts

Our new discounts allow you to offer greater savings to qualifying clients.

Multi-Car Discount: This discount wasn't available in *Quantum Auto*[®] but is back by popular demand. It provides additional savings for policies with 2 or more private passenger vehicles or pickup trucks.

Good Payer Discount: This discount is intended to reward our customers who are good payers. It is automatically granted to all new *Quantum Auto 2.0* clients; as long as your client continues to pay on time and with good funds, they can continue to receive the Good Payer discount.

Electronic Funds Transfer Discount: Your client may qualify for the Electronic Funds Discount if they choose an Electronic Funds Transfer (EFT) bill plan and pay their premium via EFT. This discount applies at new business, renewal and policy change; if added or deleted mid-term we will prorate the discount. The EFT fee still remains.

Continuous Insurance Discount: This new business discount is provided to clients who have been continuously insured for at least 6 months. The longer the client has insured the more they may benefit.

Alternative Fuel Discount: Our Alternative Fuel discount offers a discount for electric, hybrid/electric and hybrid electric turbo vehicles, such as the Chevrolet Volt. When you input the VIN, the discount automatically applies.

Improved & Remaining Discounts

We've updated a few of your favorite discounts and are keeping others intact.

Safe Driver Discount: Our Safe Driver discount provides savings if the drivers on the policy have clean driver records; the policy may qualify for the Safe Driver discount.

Early Quote Discount: This discount replaces our Early Quote Advantage and is a new business discount. It provides an up-front savings for customers planning their insurance needs in advance, and phases out over time. Provided the policy is issued at least 8 days in advance or the customers current policy expires 8 days in the future, your clients can buy the policy now and receive the Early Quote discount; this broadens the number of clients who are eligible for this discount. Customers with Travelers as their most recent prior carrier are not eligible.

New Car Discount: This discount has been expanded to apply to both Comprehensive and Collision coverage.

A number of discounts remain the same in Quantum Auto 2.0, such as Driver Training, Student Away at School, Good Student, Home Ownership, New Car, Paid in Full and Multi-policy Discount.

Coverage Discounts are subject to availability and to individuals meeting our underwriting criteria.
